

PIGEON SPIKES

Pigeon Control Services 021 447 3578
www.pigeoncontrol.co.za

Our pigeon spikes can be used on parapet walls, garden walls, gutters, window sills, railings, roof tops, external plumbing, drains etcetera.

Being transparent, they are almost invisible once installed.

Our spikes are made from clear UV stabilized polycarbonate material for long life.

- Designed to take the shape of curved surfaces.
- Easy to install with adhesive, cable ties or screws.

Convenient snap-off fracture points allow you to quickly break off the length you need without the need for saws or cutting tools making installation quick and easy.

Size: One meter lengths, width (measured from spike tip to spike tip) 105 millimetres, Mounting base width 25mm, Spike length 85-90 mm.
